Refer FAQ 17 at woodworkers.com.au for detailed information on each design. All designs can be custom made for particular applications.

Our external products are fine because we don't use pine!

Surprisingly, window hoods came into general usage only at the end of the nineteenth century as Queenslanders belatedly adapted their houses for the tropical climate. The Woodworkers' Company makes metal hoods fully assembled or supplies timber hood designs as either complete kits (incorporating metalwork, screws, and flashings) or as timberwork only components. Special hood designs can be quoted, if required.

5 GOOD REASONS WHY YOU SHOULD USE SIKKENS OIL BASED COATINGS

- As a natural oil-based coating it nourishes the timber while at the same time allowing it to breathe.
- It is very easy to apply and can easily be removed from glass etc when accidents occur.
- It is equally easy to re-coat over time without the need for the complicated etching required with plastic acrylic coatings.
- It has excellent longevity
- It 'lubricates' movement of the joinery items that need to slide against each other (eg double hung windows) rather than acrylic coatings which tend to stick together.

| | SIKKENS ON CEDAR | SIKKENS ON PINE |
|-----------------|------------------|-----------------|
| 077 pine | | |
| 006 light oak | | |
| 009 dark oak | | |
| 010 walnut* | | |
| 045 mahogany | | |
| 048 rosewood | | |
| 085 teak | | |
| 813 silver grey | | |
| 020 ebony* | | |

sikkens

Dark colours are not recommended for external use. Refer FAQ 3 for warranty conditions

TIMBER MATE WOOD FILLER
Interior grade non shrinking water soluble filler.

250g
\$22

how to finish joinery video

Woodworkers recommend specific alkyd based products from the Sikkens range for finishing their joinery. Our experience shows that these are both easy to apply and recoat; provide a long service life and nourish the timber with natural oils. Refer our FAQ1 and video for further information.
